Easter break activity pack

**Cars Area Together
hope that you enjoy
your pack**

In this pack and booklet, you will find...

- A timetable to help you plan your week
- An Easter Wellbeing Walk pack
- Easter Trail pack
- Colouring and activities pack

Instructions on how to make some of the items (some are fairly self-explanatory!)

Materials to make:

- A rainbow mobile using pasta
- Make your own mask
- Egg box art pictures
- Stained glass effect window kite
- Pasta windchime
- Lollipop stick chick and bunny
- Papier Mache kit

How to make up the wallpaper paste for your Papier Mache

1. Place 0.7 litres of water in to the cup
2. Sprinkle the full contents of the bag whilst mixing briskly for 10 seconds.
3. Leave for 20 seconds.
4. Stir thoroughly before use.

You now have the wallpaper paste to start creating your master piece!

You can use the balloon to sculpt on or a pot from the recycling!

Tear the newspaper into strips ready to start making your creation!

Paste the wallpaper paste on to a strip of newspaper and smooth it on to the surface of your balloon or pot! Keep doing this until it is completely covered. Leave to dry. Once it's dry follow steps as before. Do this step until you have covered your balloon or pot with 3 layers of newspaper. Do the final step with the white paper.

Once it is definitely dry then you can get creative! Either colour it, paint in, stick tissue to it and make it your own.

If you've used the balloon you could ask an adult to cut it in half and make 2 masks from it. Have lots of fun!!

Pasta Wind Chime

Paint the bowl however you'd like! Be as creative as you want. Paint at least 30 pieces of pasta in assorted colours. Leave your pasta and bowl to dry.

Once the pasta and bowl are dry, they are ready to be assembled.

Glue or tie 5 pieces of pasta on to a piece of string making sure you leave enough at the top of the string to glue to the bowl. Do this for all 6 pieces of string.

Poke a hole in to the centre of the bowl. Cut the white string into several strips. Group together & poke the pieces through the hole & tie off into a loop on the top & tie off into a knot on the bottom to secure.

Glue the bare area at the top of the string to the inside of your bowl. Spacing them out evenly. Cut just below the last piece of pasta on each string. This should give you different lengths all the way around.

When you are finished, let the glue dry & find a place for you & your little painter to display your new craft.

Makes 1 Rainbow mobile

Prepare your pasta – paint 6 pieces of pasta red, 6 orange, 6 yellow, 6 green, 6 blue, 6 indigo and 6 violet and leave them to dry overnight.

Making up the mobile

First, cut the paper plates in half and have your child make 7 holes along the straight edge of the plate.

Make sure to also punch an extra hole in the top of the paper plates if you plan on hanging them as mobiles. You'll want it squarely in the centre of the rounded edge, so it might be best if you punch that one.

Next, have your child glue cotton balls all over the paper plates to make their own little clouds.

While the glue is drying, have the children make their rainbow threads. Tie a large knot in the string and place 6 pieces of pasta in the same colour onto each string.

Tie the strings of rainbow pasta onto the paper plates, and add an extra loop of string to the top hole for hanging. It's all ready to hand and enjoy!

Stain glass window effect kite

To make the kite frame you need to cut out two diamond shapes and several strips of black paper.

Place one of the diamond shapes on to a surface, create a design with black paper strips or shapes. You could do traditional cross-shape strips, or something of your own creation.

Start covering your kite shape with coloured tissue paper squares or pieces. When your kite shape is completely covered with tissue paper stick the other strips of black paper over the top of the other ones and then glue the diamond shape on top of the other piece to enclose all the coloured pieces of tissue in.

For the tail, staple a piece of wool or ribbon to the bottom of the kite. You could also add a few construction paper flags to the tail – cut out a simple bow tie shape and staple to the tail.

Tape your colourful kites in a window to brighten up a gloomy day.

Egg box picture

Shape the tops of the egg holders into flowers (see pic for idea) paint the egg boxes in the colour/colours you'd like and leave to dry. Whilst they are drying cut out the flower stems and leaves from the green card and stick to the sheet of cardboard.

Once the egg box flowers are dry stick them to the sheet of paper. Stick a button inside each flower and leave to dry. Enjoy your beautiful flower picture.

Lollipop chick and bunny

Directions

- * First assemble the base of your chick & bunny. For each, simply glue your lollipop sticks together to look like a fence.
- * Set them aside to let it dry completely.
- * Next have your child paint the front of the lollipop stick fences {one white, one yellow}
- * Again, set them aside to let it dry completely.
- * Now cut out the cardstock embellishments to give your pieces life. For the chick, you could trace your child's hands for its wings, as well as cutting out its beak and feet. For the bunny, cut out ears and a cute pink nose.
- * To finish off the **Easter Friends** craft, glue on the paper embellishments, as well as wiggle eyes.
- * Then let it all dry completely, before displaying proudly.
